RICH IN HISTORY

—Notable in Achievement—Great in Industry—Progressive in Trade—Conspicuous in Enterprise—Newark stands today as one of America's foremost cities—now 250 years old.

NEWARKERS AND ALL

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. The Long Distance Electric

TEST TELLS

The Electric Truck that has proven to be the most economical method of trackless transportation to replace the horse.

This printed statement is only intended to show how and why the money built into Atlantic Electric Trucks justifies itself in greater dividends per dollar of investment than has yet been proven possible even in the Electric Truck field.

The Atlantic Truck is justly entitled to the appellation "*The Long Distance Electric Truck*"

The amount of Electricity stored in a Storage Battery is a fixed quantity.

Consequently, that Truck which uses the least quantity of Electricity in going one mile will travel more miles per day than any other Truck using such fixed quantity of power.

WE specialize in high-grade, dividend-paying independent oil securities, believing that these issues are the most desirable investments to be had today. The oil industry was never in such a prosperous condition, and petroleum and its by products are commanding record prices. The established oil producing and refining companies are disbursing very liberal dividends to their stockholders, and there are unmistakable signs that the next upward movement in the market will be led by the oils. In anticipation of this, investors should prepare to reap the benefits of the impending rise thoroughly investigating the merits of the various securities on the markets.

In order that our clients may be fully informed regarding the independent oil securities our statisticians have prepared analytical reports which contain up-to-the-minute data of inestimable value to intending purchasers. These reports embrace all of the active oil issues and we shall be pleased to send copies to those who desire them.

MAN can write his own sales literature just about so long. Then he commences to grow stale. The brightest of men fall victims to this strange malady but, only the really "big" ones admit it—the others go "peggin' along, peggin' along, on 'he rocky road to Dublin!"

¶ If you have reached the stage where their doesn't seem to be a single new angle left from which to approach your subject, flash the "S. O. S." signal—send for us. Good News

Everyone likes to read it. If

you think of buying a diamond solitaire, see that little store with the large business and high reputation for honest dealing for 40 years. I tell you the truth. I have no bargains in diamonds. There are none in existence. But I offer only fine quality at a small profit, according to my expenses. Seeing is believing.

Complete Printing Service

NO SANE man would think of buying one shoe here and another shoe there; yet there are many otherwise sagacious business men who believe they can do better by buying their printing one place, their engraving at another, their multi-graphing at a third and so on, *ad infinitum*.

¶ Our service is complete. We assume absolute responsibility for the quality of your art work, engravings, and the general fitness of the product for its purpose. When we do your work, we become your employee—watch and safeguard your interests as though they were our own.

Test our service with a trial order.

The Coe Combustion System WILL REDUCE YOUR COAL BILLS

THE SYSTEM consists of the Coe Turbine Blower (patented) for producing forced draft, Coe Sectional Grates which are made in all standard sizes and with a variety of arrangements attached, and a Coe Draft Control, or wind-operated automatic. With automatic draught, perfect and complete combustion is secured at a cost of power production, easily met peak load demands and that with it you can burn the low grades of coal and thus effect substantial savings. Let us present our proposition. Get our prices on Grate Bars.

New Jersey Freie Zeitung

NEW JERSEY'S OWN

GREAT GERMAN DAILY

PUBLISHED EVERY MORNING

(ESTABLISHED 1858.)

DAILY AND SUNDAY for Fifty-nine years the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of well-to-do German-Americans throughout this city and county

As a first-class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence, its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium, the high quality of its circulation, and the fact of its having an exclusive field, produces excellent results for stores, real estate agents, banks, and every good, honest proposition, as its perpetually well filled advertising columns plainly testify

Newark is a German-American city, and any advertiser who attempts to cover it without using the German-American newspaper deliberately cuts himself off from the business of a very large proportion of the population.

MAN can write his own sales literature just about so long.

Then he commences to grow stale. The brightest of men fall victims to this strange malady—but, only

the really "big" ones admit it the others go "peggin' along, peggin' along, on the rocky road to Dublin!"

¶ If you have reached the stage where their doesn't seem to be a single new angle left from which to approach your subject, flash the "S. O. S." signal send for us. We will dress up your sales letters, booklets, advertising matter to command attention. We'll put pep, punch and personality fire, force and fervency into the appeal—warmth that will thaw out your iciest prospects and sell the goods.

Why Every Business Man Should
BE A MEMBER
OF THE
Board of Trade
OF THE
City of Newark

BECAUSE it is representative of the industrial, commercial, financial and professional life of the City.

BECAUSE it is an educational force in the community exerting the influence of its combined membership for the improvement of industrial conditions and for the betterment of the municipal affairs of the City.

BECAUSE it insures stability of government in city and state affairs and serves as a bulwark in protecting the invested capital of business men and its protective strength has a value equal to insurance against liability.

What Commercial Organization Means

President Roosevelt stated that: "Boards of Trade were the eyes and ears of the business world. That the resolutions of such bodies are the thoughts of today and become the laws of tomorrow."

Mayor Haussling stated that: "It is not exaggerating to say that the most important measures adopted by Newark within recent years have originated or received their strongest impetus from the Board of Trade, and that the Board has always stood as a bulwark against attacks upon the public rights and welfare."

What the Board of Trade is Advocating

1 An appropriation from Congress of \$2,500,000 for the building of a "New Post Office" adequate to the needs and wants of the Newark Postal District.

2. Action by the Interstate Commerce Commission to readjust freight rates by doing away with the free "Lighterage Privilege" in New York Harbor, the maintenance of which imposes an embargo of three cents per one hundred pounds on all freight shipments received or shipped from North Jersey piers.

3 The development of "Newark Bay" as a seaport which involves the removal of the present Bay Bridge of the Central Railroad Company; the securing of an appropriation from Congress for the deepening of the channel from twenty feet to thirty feet and the widening of the channel to one thousand feet by the cutting of another channel along the west shore of the bay.

4. To bring about "Greater Newark" through the annexation of adjacent suburban cities and towns as essential to the proper development of public works and to make Newark the seventh greatest city in the United States.

5. The adoption of a plan in connection with public education for the teaching of "Vocational and Industrial Training" in co-operation with the various lines of industry carried on in the workshops of Newark.

6. The creating of an influence throughout Northern New Jersey in favor of "Patronizing Newark Merchants" with the object of increasing our commercial trade.

7 Preventing fraudulent plans of promoters of schemes involving contributions, subscriptions or purchase of tickets which are imposed upon the business public through the co-operation of business men with the "Endorsement Committee" which serves three purposes: (1) saving the time of business men, (2) preventing a loss of funds, and (3) directing contributions for the support of worthy purposes or charities.

8. Preventing the enactment of "Legislation" which would harass industry or impose burdens and conditions upon manufacturers or merchants, or add additional tax on the public; also securing the enactment of legislation for the benefit of protecting manufacturers or merchants by the Legislature or Congress.

9 Acting as an "Insurance Safeguard" at all times, ready on call to respond when desired to advocate or protest where such action will be for the benefit or protection of the commercial or industrial interests of the City.

10 In preventing "Municipal Extravagance" or adverse legislation the value of the Board of Trade to every business man is equal in every way to the protection afforded by liability insurance. It is as reasonable to do away with such insurance as to fail to be enrolled as a member of the Board of Trade.
